I/O Interface Card for F2 panel

This module can be used as universal I/O module or as interface for the Fire Brigade. Peripheral devices as Fire Brigade Control Panel, the Alarm Transmission Device and the Key-Deposit-Box can be connected.

DESCRIPTION :

- 3 programmable dry relay contacts
- 2 programmable and monitored power outputs (e.g. for sounder / beacons)
- 1 monitored input (zone)
- 8 digital & programmable inputs
- 8 digital & programmable outputs
- 2 DC outputs 24V, 500mA each

TECHNICAL SPECIFICATIONS :

Quiescent current	3 mA
Relay contacts	max. 30V DC / 1A
OC outputs	max. 30V DC / 50mA
Monitored outputs	max 24V DC / 500mA

CERTIFICATIONS :

VdS No. : G 208 145
